ARDEN

**SMALL ENOUGH *TO* CARE.
BIG ENOUGH *TO* CHALLENGE.**

Arden is a vibrant, Christian-based school from Pre-School to Year 12, providing a positive learning and caring environment that inspires girls and boys to thrive. The school is small enough to nurture and care for each child individually, and big enough to challenge and foster the individual talents of each student to help them fulfil their potential.

Middle School (Years 7–9) caters to 96 students per year group. Students are well known as individuals and encouraged to pursue their individual goals by working closely with dedicated, talented and passionate staff in a partnership of learning.

Senior School (Years 10–12) prepares students for both autonomous and collaborative learning, equipping Arden graduates for tertiary studies and a fulfilling life beyond school.

A Christian, values-based student wellbeing program, multiple leadership opportunities, camps, overseas mission tours and co-curricular activities provide the important balance in every student's education. This enables them to not only achieve their personal best in the HSC, but to grow into curious, courageous and compassionate men and women with an enduring passion for learning who will go on to transform the communities in which they will live and work. To encourage a culture of excellence Arden offers scholarships to students who can combine a high standard of academic achievement with responsible attitudes, leadership potential and a proactive and positive contribution to School life.
